Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner indicated that the claims would be in allowable condition if the following amendments were made: In claim 1, the Examiner indicated that the phrase "is encoded by" in line 3 of the claim should be replaced by - - includes- - to clarify that the 3'UTR of the virus includes each of the three domains identified on pages 25-26 of the application, rather than including only the newly identified 3' 259 nucleotides. In claims 17 and 18, the Examiner indicated that the claim language "a suitable amount of" should be cancelled as it is not clear what the amount should be suitable for. The Applicant agreed to the amendments, and indicated that an Examiner's Amendment would be acceptable.
